## 1. Innio is upgrading towards electronic invoices

As part of our accounts payable automation solution, Innio is collaborating with Basware, a global leader in Purchase to Pay and e-invoicing solutions.

Basware provides an on-line platform for the electronic submission of machine-readable invoices and credit notes in e-PDF format. The major benefit is that the invoices are being processed in a structured format, which allows them to be processed in a timely manner.

The service is free of charge.

After creating an account, you will be able to

- send / upload invoices,
- check the status of invoices online,
- manage your Basware account

### **Important:**

- Please send only invoices and credit notes to Basware
- Don't send:
  - Purchase order confirmations
  - Catalogues
  - payment reminders
  - account statements, etc.
- The above listed documents must be sent to the relevant Sourcing buyer (indicated on the PO) or Accounts Payables (see [Section 10](#)).

## 2. General requirements for invoice submission

Please follow the below guidelines to allow flawless invoice processing and on-time payment:

- Innio has a no PO / no pay policy; therefore PO number or payment plan number has to be printed on every invoice unless otherwise agreed with Innio
- Send all invoices right after invoice creation
- Avoid sending / creating summary invoices
- One PO number on each invoice, avoid multiple PO numbers on one invoice

## 3. Fast track Basware account creation

- Link for account creation: <https://portal.basware.com/open/innio-basware>
- Select the language in the top right corner and click on Get started (or equivalent based on the selected language).
- Follow the steps of the registration. You need an email address that is monitored.
- More details can be found in [Section 5](#).

## 4. Guide for selecting the optimal Basware service

Based on your system capabilities please decide which invoicing method you will be using (listed in order of processing reliability and Innio's preference):

### 4.1. PDF e-invoice (sent in email) – register and activate sending email address(es)

**Important:** please check if your invoice format meets the machine-readable PDF requirements:

- When selecting one line, the selection must not be jump over to the next/previous line (this example is most likely a scanned invoice created with a character recognition software):

Nr.	Beschreibung	Menge	Einheit
11-1020-01	Reifenhotel Paket		
11-1030-05	4 lose Reifen auf Felgen montieren und wuchten		
	<b>Summe Arbeitswert</b>		
VSC225/55R17HVANCO N	Conti Vanco Cont.200 RW B NH A Ge 72 Db	4	Stück
Z922	→ Altreifenentsorgung	4	Stück
	<b>Summe Artikel</b>		
		<b>Summe Arbeitswerte</b>	
		<b>Summe Artikel</b>	

- All data elements must be selectable (with the mouse or by clicking Ctrl+A)
- If copied to Word, all numbers and characters should be displayed correctly as intended
- Handwritten, scanned or picture elements will not be recognized
- If your company data (company name, address, VAT ID, bank account number) are part of a picture, they will not be recognized by the system
- A machine-readable PDF cannot be produced by a scanner, it needs to be created and saved by a dedicated software (Word / Excel has this option as well)
- For sending invoices from ERP (SAP) or an invoicing software directly see [Section 8](#).

#### Invoice detail requirements

- The PDF file name must not contain the word *attachment, Anhang, Anlage, adjunto, annex, or liite*.
- Print the Innio PO number if communicated
- At least the following details should be on the invoice:
  - Item description
  - Net total
  - VAT % and value
  - Gross total
  - If there are multiple lines, the item unit price \* quantity should equal to the line total

If the above cannot be fulfilled, please use one of the next options:

### 4.2. Invoice key-in (entered online) – register and activate service

### 4.3. Scan & Capture (sent in email) – register to see invoice status

## 5. Creating a Basware account

The Basware account is free of charge. Innio has no control over your login data (username or passwords), therefore your primary contact should be Basware Support ([https://basware.servicenow.com/bw?id=bw\\_sc\\_cat\\_item\\_public](https://basware.servicenow.com/bw?id=bw_sc_cat_item_public)).

### 5.1. Hints for account creation

- The Basware account should be created with a monitored email address. This email owner will be the primary administrator account owner.
- Please create only one account and add more users later.
- After setting up the account, you can add more users with administrator rights. We recommend assigning at least 2 persons with administrator rights.
- Adding or removing users can be done by any of the administrators.
- Addresses registered for PDF e-invoice sending don't have to be (but can be) the same as the account user addresses.
- For more details see [Section 9](#).

### 5.2. Instructions for Basware account creation

- Link for account creation: <https://portal.basware.com/open/innio-basware>
- Select the language in the top right corner and click on Get started (or equivalent based on the selected language).

- Choose the service you plan to use for invoice sending (see [Section 4](#)):
  - Machine readable PDF -> PDF invoices
  - Type in and upload invoice -> Key in invoices online
  - Scanned invoices -> PDF invoices

## Choose an e-invoicing service

INNIO Group
Unknown Innio Group

▼ Pick a free service and start sending e-invoices

**Send PDF invoices by email** Let's start

Create PDF invoices with your billing system and send them to Basware by email. Our service converts the PDFs to your customer's preferred, electronic format and delivers them instantly.

**Key in and send invoices online** Let's start

Create invoices with a simple online form with Basware's e-invoicing service. Basware delivers the invoice to your customer instantly, in their preferred format.

- Create account and follow the instructions

## Create Account Login

Email Address \*

Password \*

Show

Your password must contain at least

- 10 characters
- a lowercase character
- an uppercase character
- a special character
- a number

- If you don't plan to use the PDF e-invoice or Key-in service, you can skip the following steps.

## 6. Setting up the PDF e-invoice service

- Please fill in all required data

### PDF e-Invoice

[Company Details](#) [Service Settings](#) [Instructions](#)

Check the information we already have on your company and fill in any missing information.

**▼ Basic details \***

Registration country *	VAT *
<input type="text" value="Hungary"/>	<input type="text"/>
Registered company name *	Company trade name
<input type="text"/>	<input type="text"/>
Address Line 1 *	<a href="#">Add an address line</a>
<input type="text"/>	
Postal Code *	City *
<input type="text"/>	<input type="text"/>
County / State / Province	
<input type="text"/>	

**TAXATION DETAILS**

VAT

**▼ Primary contact \***

**i** Primary contact of your company towards Basware

Person  Mailing list

First name

Last name

Email address \*

**▼ Add more information about your company?**

[Additional company identifiers](#)

- Please make sure you confirm the email address a second time.

### PDF e-Invoice

[Company Details](#) > **Service Settings** > [Instructions](#)

You can adjust the service settings when the service is deactivated. The service will not be accessible to the users before you activate it. Remember to save all the changes you make to the settings.

▼ **Email addresses for invoicing \***

Enter the email address(es) from which you will send invoices to your customers. The service rejects invoices sent from addresses other than the ones listed below.

██████████@gmail.com	Confirmed
----------------------	-----------

[Add new email address](#)

[Cancel](#) [Previous](#) [Next](#)

### Success

✔ You have successfully set up the Basware PDF e-invoice service

You can now start sending PDF e-invoices to your customer.

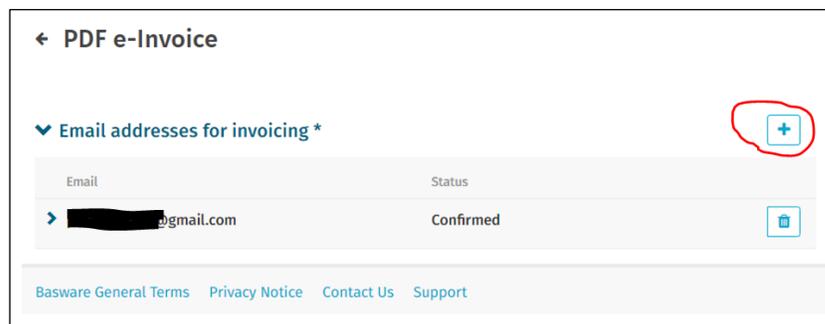

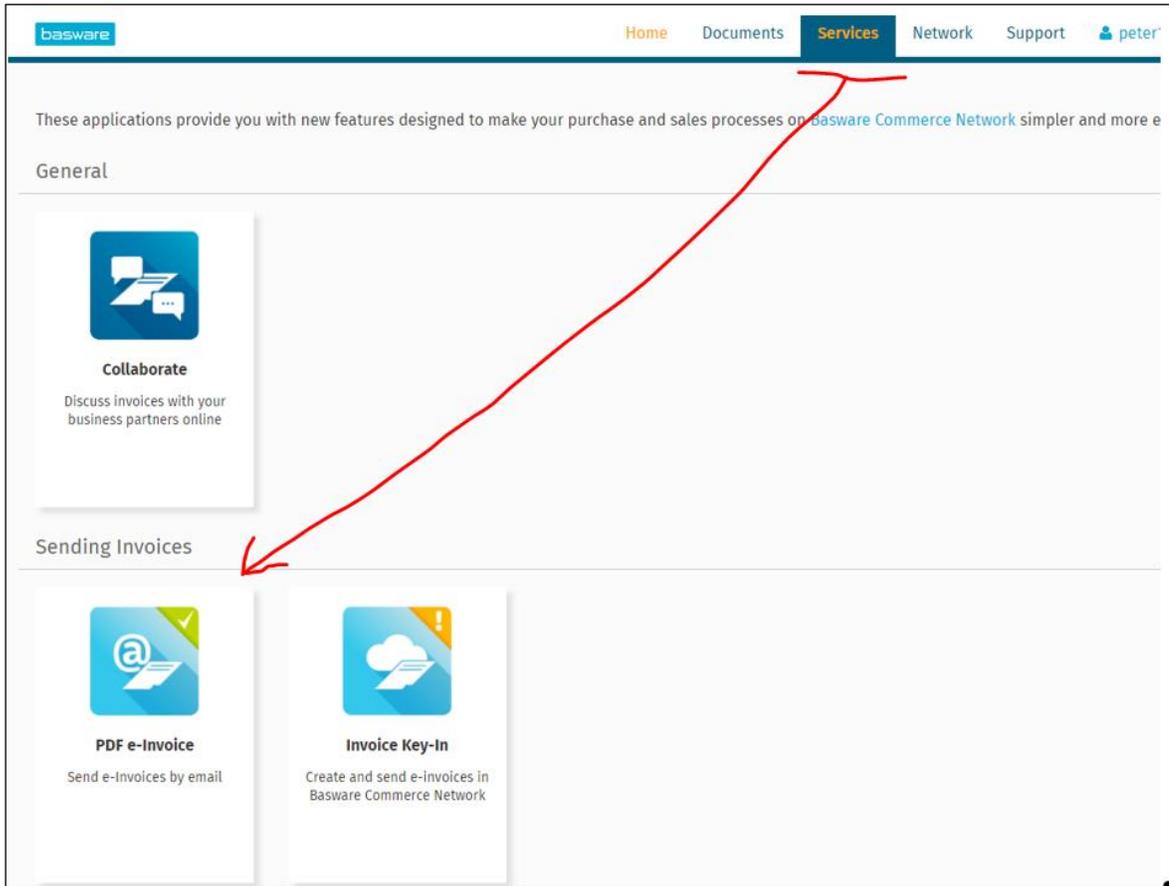

[Close](#)

**Important to note:**

- the first invoice sent from a newly activated email address is mapped by Basware
- it takes appr. 2 days
- a confirmation will be sent when finished
- starting with the 2<sup>nd</sup> invoice only error messages will be sent (see [Section 12](#))
- invoice status can be checked in the portal (see [Section 11](#))
- if the layout of the invoice is changing, it is important to notify Basware. Please open a ticket or send an email to the relevant AP mailbox (see [Section 10](#)) with the sample of the new invoice image

## 7. Register more email addresses for PDF e-invoice sending

- The admin user should log in to <https://portal.basware.com/> and follow the next steps:

← PDF e-Invoice

▼ Email addresses for invoicing \* +

**ADD NEW EMAIL ADDRESS**

Email \*  Status: Confirmation pending

Mandatory value missing

Cancel Save

Email	Status
> [redacted]@gmail.com	Confirmed <span style="float: right;">🗑️</span>

[Basware General Terms](#)
[Privacy Notice](#)
[Contact Us](#)

← PDF e-Invoice

▼ Email addresses for invoicing \* +

Email	Status
> [redacted]@gmail.com	Confirmed <span style="float: right;">🗑️</span>
> [redacted]@live.com	Confirmation pending <span style="float: right;">🗑️</span>

[Basware General Terms](#)
[Privacy Notice](#)
[Contact Us](#)
[Support](#)

- The newly added person will receive an email from Basware for confirming the email address:

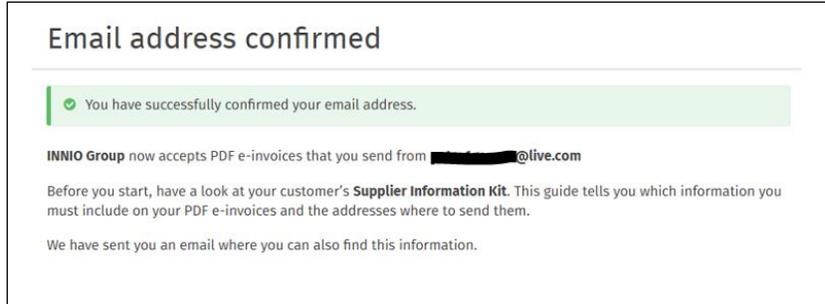

**Start sending e-invoices to INNIO Group!**

INNIO Group has activated the **PDF E-invoice** service for your company. This means that you can start sending them e-invoices, free of charge.

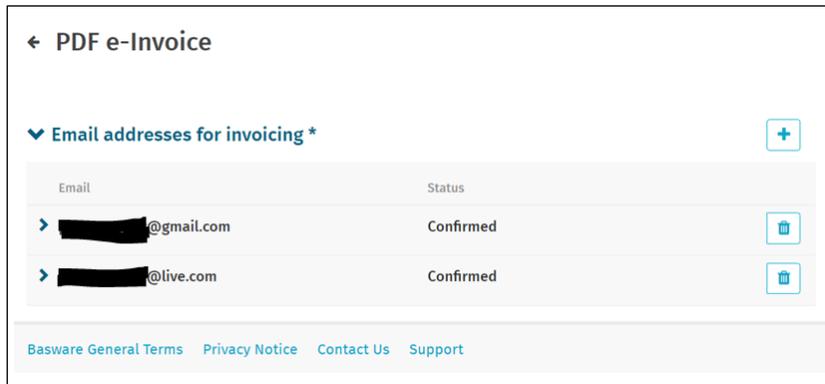

To get started, confirm your email address and we will set up the service for you.

CONFIRM

- After confirmation the person receives the below message:

- In the portal the status will be refreshed:

## 8. Register a no-reply email address for PDF e-invoice sending

- If your invoices are sent from an ERP (SAP or similar) or invoice creation system, you may not be able to receive the confirmation email from Basware
- Please follow these steps to set up a system email address:
  1. Make sure there is at least one email address confirmed for PDF e-invoice
  2. Add the system email address as described in the previous section
  3. Open a ticket to Basware asking to activate the pending email address

## 9. Managing the Basware account

- We recommend assigning administrator rights for at least 2 users
- These users don't have to be the same as the PDF invoice sending users
- The following pictures show where you can modify the account (edit fields, add/remove users, etc.):

The screenshot shows the 'My Account' page in the Basware interface. The user profile information is as follows:

<b>Email</b> peter.gaspar@innio.com	<b>Username</b> peter.gaspar@innio.com	<b>Country</b> Hungary
<b>Phone</b>	<b>Name</b> Peter Gaspar	<b>Account disabled</b> No
<b>Language</b> English (United States)	<b>Company Administrator</b> Yes	

Navigation links: » Edit, » Enable 2-step verification, » Change Password. A dropdown menu is open, showing options: Overview, My Company, My Account, Help, and Log Out.

The screenshot shows the 'My Account' page with additional options. The user profile information is the same as in the previous screenshot. A 'More Actions' dropdown menu is open, showing options: INNIO Group, View Documents, View child organization, View Users, View Applications, and Add User.

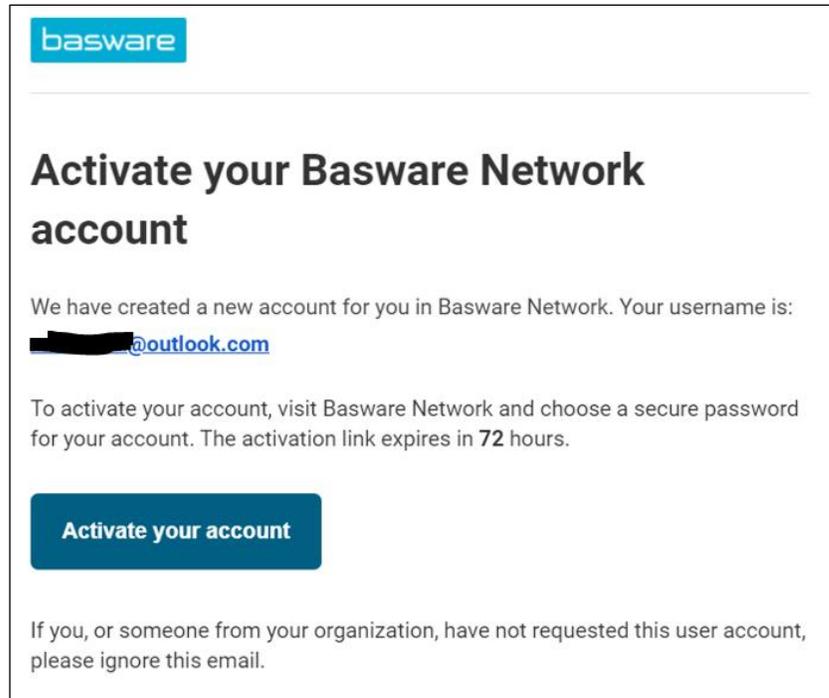

Below the profile, there is a 'Login history' section:

Login history	Last unsuccessful login	Number of unsuccessful login attempts since the last successful login
Last successful login 7/13/2021 5:44:51 PM		0

The screenshot shows the 'Add user' page with the 'Create New Account' form. The form fields are:

- Email**: [Text input field]
- Username**: xyz@outlook.com
- Country**: Select Country (dropdown menu)
- Phone**: [Text input field]
- First Name**: [Text input field]
- Language**: Select Language (dropdown menu)
- Last Name**: [Text input field]
- Role**:
  - End User
  - Company Administrator

- The newly added person will receive an email from Basware for confirming the email address:

## 10. Where to send invoices

- Invoices sent to the PDF e-invoice channel will be accepted only from confirmed email addresses (see [Section 6](#) and [Section 7](#)).
- For non-invoice documents please see [Section 1](#).
- Put the Basware email address into the 'TO' field only (not CC or BCC).
- Please send invoices to one of the following addresses based on the Innio entity you serve:

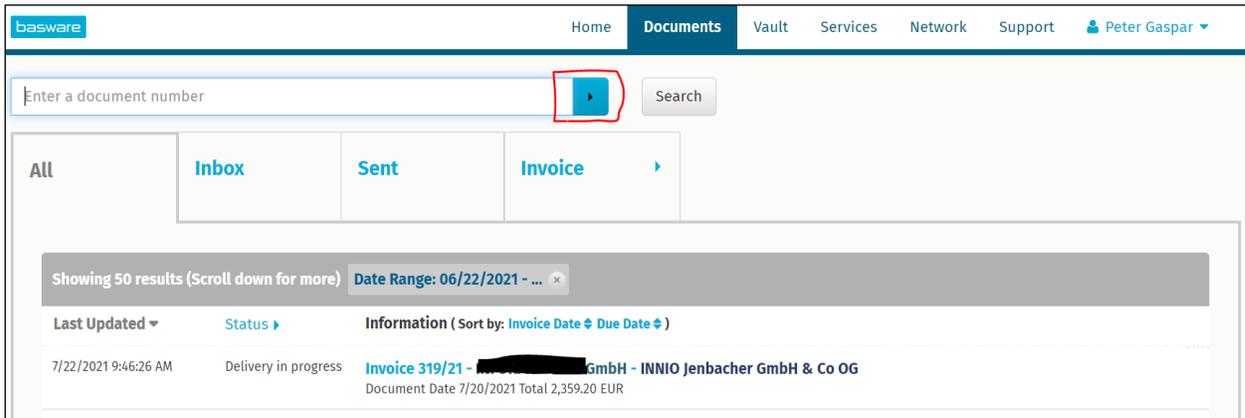

Legal Entity	PDF e-invoices (see <a href="#">Section 3</a> )	Non machine-readable invoices	Accounts Payables mailbox for payment related inquiries
<b>INNIO Jenbacher GmbH &amp; CO OG</b>	Jenbacher.Austria@email.basware.com	Jenbacher.Austria@bscs.basware.com	AP.Jenbacher@innio.com
<b>INNIO Waukesha Gas Engines Inc</b>	Waukesha.USA@email.basware.com	Waukesha.USA@bscs.basware.com	WaukeshaAPinquiry@innio.com

## 11. Additional portal services

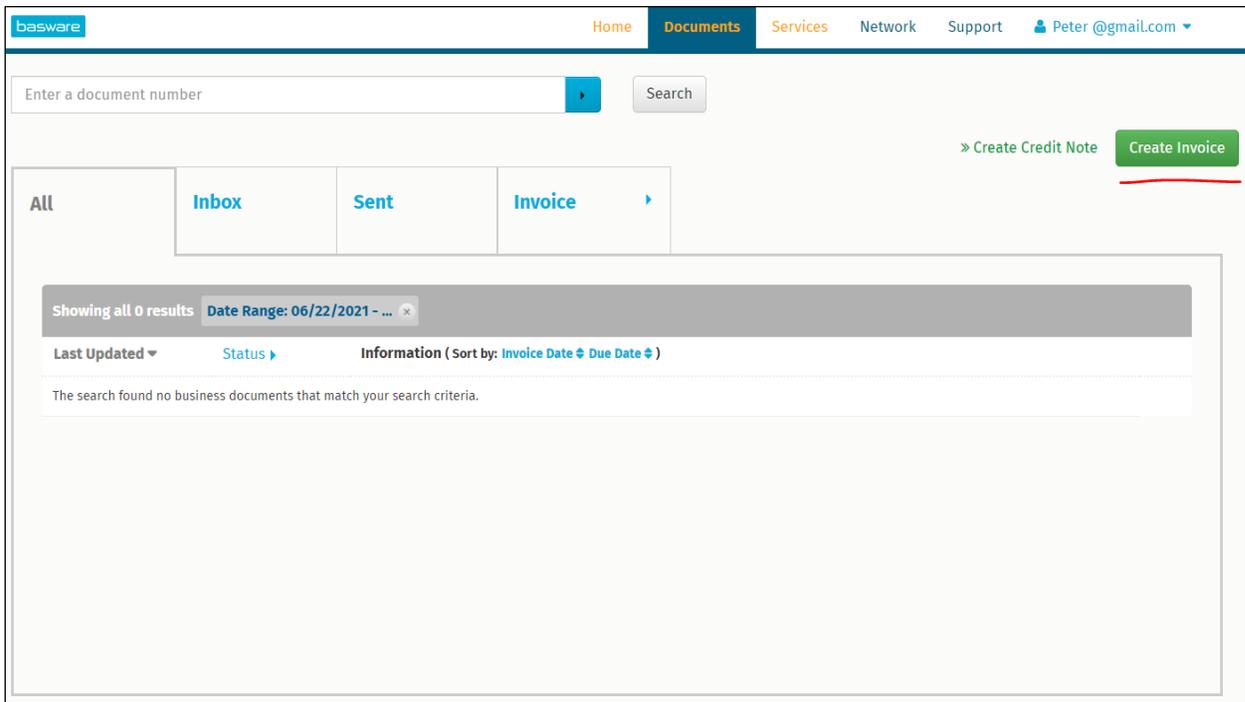

When logged in on the Basware Portal (<https://portal.basware.com>) it is possible to check the status of the submitted invoices.

- Please click on Documents; the list of recent invoices will be displayed
- Advanced search can be used by clicking on the arrow marked in red below

The screenshot shows the Basware Portal interface. The top navigation bar includes 'Home', 'Documents', 'Vault', 'Services', 'Network', 'Support', and a user profile 'Peter Gaspar'. Below the navigation bar is a search bar with the placeholder text 'Enter a document number'. A red square highlights a blue arrow button next to the search bar. To the right of the search bar is a 'Search' button. Below the search bar are tabs for 'All', 'Inbox', 'Sent', and 'Invoice'. The 'Invoice' tab is selected. Below the tabs is a summary bar showing 'Showing 50 results (Scroll down for more)' and a 'Date Range: 06/22/2021 - ...' filter. Below this is a table with columns for 'Last Updated', 'Status', and 'Information'. A row is visible with the following data: '7/22/2021 9:46:26 AM', 'Delivery in progress', and 'Invoice 319/21 - [redacted] GmbH - INNIO Jenbacher GmbH & Co OG'. Below the row is the text 'Document Date 7/20/2021 Total 2,359.20 EUR'.

- If you have activated the Invoice Key-in service, you can create and submit invoices here

The screenshot shows the Basware Portal interface. The top navigation bar includes 'Home', 'Documents', 'Services', 'Network', 'Support', and a user profile 'Peter@gmail.com'. Below the navigation bar is a search bar with the placeholder text 'Enter a document number'. A blue arrow button is next to the search bar. To the right of the search bar is a 'Search' button. Below the search bar are tabs for 'All', 'Inbox', 'Sent', and 'Invoice'. The 'Invoice' tab is selected. Below the tabs is a summary bar showing 'Showing all 0 results' and a 'Date Range: 06/22/2021 - ...' filter. Below this is a table with columns for 'Last Updated', 'Status', and 'Information'. Below the table is the text 'The search found no business documents that match your search criteria.' In the top right corner, there are two buttons: '» Create Credit Note' and 'Create Invoice'. The 'Create Invoice' button is highlighted with a red underline.

- Under Support you can find online resources for technical questions

## 12. Troubleshooting

The most common error messages and resolutions are listed below:

Error	Explanation	Resolution
Basware PDF e-Invoice service has rejected your email. The email was rejected because it was sent from an unregistered address.	The Basware PDF e-Invoice service only accepts emails sent from email addresses that have been registered to the service.	Please register and activate the email address for PDF e-Invoice (see <a href="#">Section 7</a> and <a href="#">Section 8</a> ).
No text could be extracted from the Invoice.	The file is a scanned copy. It is an image or picture although in PDF format (similar to JPG).	The pdf file should be machine-readable (see <a href="#">Section 4</a> ). Use the non machine-readable email address listed in <a href="#">Section 10</a> .
Some text could not be extracted from the Invoice	Although the PDF file seems to contain selectable text, the invoice is not completely machine-readable. When selecting the text for copying the cursor jumps to the next / previous row rather than selecting entire rows.	If you cannot generate the invoice with another PDF creator, please use the non machine-readable email address listed in <a href="#">Section 10</a> .
The type of the PDF document is incorrect / Der Dokumententyp ist unbekannt	The document sent is not an invoice. Most probably it is an account statement or payment reminder, etc.	See <a href="#">Section 1</a> and <a href="#">Section 10</a> .
The document contains 2 invoices X1 and X2.	Two invoices are in the same PDF file (multiple pages).	Send one invoice in one PDF file. You can send many PDF files in one email.
The recipient's address is missing or the address on the invoice is incorrect.	The name and the address of the respective Innio entity is missing.	The recipient's (Innio's legal entity) street name, city and postal code should be printed on the document.
The item calculation is not correct.	The total line amount is not the product of unit price x quantity - discount.	Please make sure the line total is correctly calculated and any discount applied is indicated as well. use the non machine-readable email address listed in <a href="#">Section 10</a> .
Line item amounts are missing from the PDF invoice	There is no structured invoice detail available.	Include the following details: line (position) item description, unit price, quantity, line total. Alternatively use the non machine-readable email address listed in <a href="#">Section 10</a> .

Should you receive an error message with unclear explanation, please contact Basware support or the relevant Innio AP team (see [Section 10](#)).

In case you cannot remove the cause of failure, please **resend** the rejected invoice to the address listed under 'Non machine-readable invoices' in [Section 10](#).
